

Our college is located in a rural area and in the middle of many villages. Mostly students who are pursuing in the college belong to backward areas. So our main motto is to examine the main problems of the students which they are facing in their daily life i.e during examination, competitive examination, cultural activities and participation in functions. So we try to understand their problem and do our sincere efforts to sortout the problems.

The service of trained teachers will be provided to guide students to selecting the right college and over the desired subject combination.

The avenue for higher education and job opportunities offered by each course will also be explained in detail.

Our learned staff members guide the students regarding selection of right courses even after completion of the undergraduate.
